Product Change Notice #062401

Type of Change:

- ☐ End of Life
- ☐ Facility Change
- ☑ Design Change
- ☑ Material Change
- ☐ Process Change
- ☐ Other

Part Series Affected: TKH45 and TKH55 Series

Description of Change: Last year, Ohmite announced a country of origin change for our TKH45 series and our new TKH55 series. In making this change, we made some modifications to the manufacturing process based on our manufacturing capabilities in our factory in Matamoros, primarily changing it from a thin film construction to thick film. As a result, certain dimensions for both series were slightly modified and there are some visual differences.

Expected Influence on Quality/Reliability/Performance: TKH45 and TKH55 part numbers already in the channel have no issues in terms of performance, quality, or reliability. There are slight changes to the dimensions of both series, which are documented in both the TKH45 and TKH55 datasheets available online. There is also no solder fillet in the new versions of these part numbers, but this should not have an effect on solder connection or performance.

Effective Date: 6/19/2024

Date of Last Time Shipment: Ohmite stopped shipping the old TKH versions on 4/24/2024

Sample Availability Date: 6/19/2024. Ohmite is happy to ship samples of the new TKH versions.
