Product Change Notice (PCN)

June 15th, 2022

Product Change Notification of LST Varistor Series Label Change. LFPCN 6111E

To whom it may concern,

Littelfuse would like to notify you of a change regarding LST Varistor Series' product label redesign. This redesigned label will help the users to identify and distinguish the product's voltage and I_{max} surge rating easily/clearly.

Please refer to the following label change example.

	Current Product Label	New Product Label	Note
LST Varistor Series Product Label Example			Extended and added the product's voltage and I _{max} surge rating label to the top of the product.

This is a label change only and it has no impact to the product's original electrical parameters, mechanical/dimensional specification, reliability, performance, and part number.

This label change will be implemented starting from **July 18th, 2022**, during the change transition period, customers are expected to receive the products with current and/or new label until current product inventory in Littelfuse warehouses and distribution channels are depleted.

Please see attached the affected part number list and respond to us by **July 1st, 2022**, to acknowledge this product label change notification. If we do not hear from you, we will expect that this product label change notification has been accepted and no further action is required.

Thank you.

Best Regards,
Johnny Chang
Director, Product Management
Littelfuse, Inc.
