## 2. Details of the Change

The form of the bosses will be changed as illustrated in the diagrams below.

## 3. Reason for the Change

The form of the boss will be changed to reduce insertion force into the board and to improve workability.

## 4. Differences Accompanying the Change

There will be no effect on product performance. Also, there will not be any change from the existing board installation dimensions.

## 5. Schedule for Implementing the Change

The change will be phased in, beginning with production lots in October, 2008.

Note that during the phase-in period (about 3 months from October), there may be some mixing of new and old products.

If you would like clarification concerning any of the points, please contact your Hirose Electric account representative.
