General Miniature Basic Switch type D2FD Modification Notice of Product Item Code and Product Description

[Effective Date]

1st of July, 2013.

[Applicable Model]

TYPE D2FD-series (All types)

< Refer to the " [Details of applicable model] " . >

[Reason for change]

From the start of the mass production, the D2FD-series has always been produced at our factory in INDONESIA (OMI). This has not been changed. Only in the start-up phase the control was by our main factory located in Kurayoshi, Japan. But as now everything is up and running we will change the main control factory to OMI.

Therefore we will change the main factory from OES-Kurayoshi to OMI, from July 2013. From now on you can use the new P/C.
