

Product/Process Change Notice - PCN 12_0143 Rev. -

Analog Devices, Inc. Three Technology Way Norwood, Massachusetts 02062-9106

This notice is to inform you of a change that will be made to certain ADI products (see Material Report). Any issues with this PCN or requirements to qualify the change (additional data or samples) must be sent to ADI within 30 days of publication date. ADI contact information is listed below.

PCN Title: AD5700/AD5700-1 Metal Mask Edit Resulting in updated Datasheet to reflect Extended Supply Range.

Publication Date: 28-Nov-2012

Effectivity Date: 26-Feb-2013 *(the earliest date that a customer could expect to receive changed material)*

Revision Description:

Initial release

Description Of Change

Minor mask changes have been implemented to widen the supply operating range of the AD5700/AD5700-1. Specifically, the Vcc supply minimum voltage specification will change from 2V to 1.71V.

Reason For Change

The change is necessary to reflect the extended Vcc supply performance of the AD5700/AD5700-1.

Impact of the change (positive or negative) on fit, form, function & reliability

This change will not affect the form, fit or reliability of this device and will improve functionality in terms of widening the supply range.

Product Identification *(this section will describe how to identify the changed material)*

Exact date code of changeover material to be advised prior to released material becoming available. The change described above will be reflected on Rev C of the AD5700/AD5700-1 datasheet.

Summary of Supporting Information

Qualification has been performed per ADI0012, Procedure for Qualification of New or Revised Processes. See attached Qualification Report Summary.
