ENCODERS

Select Bourns® Model PES12 12 mm Shaftless Encoders

Addition of Manufacturing Site

Riverside, California - December 13, 2023 – In order to support our fast-growing demand and enhance continuity of supply, effective immediately, Bourns will establish a new additional manufacturing site in New Taipei City, Taiwan for the [Model PES12 Shaftless Encoders](#). A list of affected part numbers is included below.

Affected Part Numbers

PES12-001-N0024

PES12-40S-N0024

PES12-42S-N0024

PES12-BLK02-N0024

The manufacturing, testing equipment, and operators are qualified consistent with the current production system. The new additional manufacturing plant in Taiwan uses the same design, component material, and manufacturing process as the existing plant.

The form, fit, function, quality, reliability, production lead time, and country of origin of the encoder from the new manufacturing site will be the same as those of the existing site. Traceability will be maintained through lot code and date code.

Samples are available upon request. Bourns recommends that customers test the affected part numbers in their specific applications for verification of satisfactory performance.

Implementation dates are as follows:

First date code using the above changes: 2243

Orders for the affected part numbers received may be filled interchangeably from the existing manufacturing site or the new additional manufacturing site.

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).

Users should verify that the described changes will not impact the performance of the product in their specific applications.
