In the absence of a response by this date, please be advised that replacement product that described above will be delivered.

If you should have any questions, please feel free to contact a Hirose business representative.

Your understanding and cooperation are highly appreciated.

■ Dimensions of the changed part

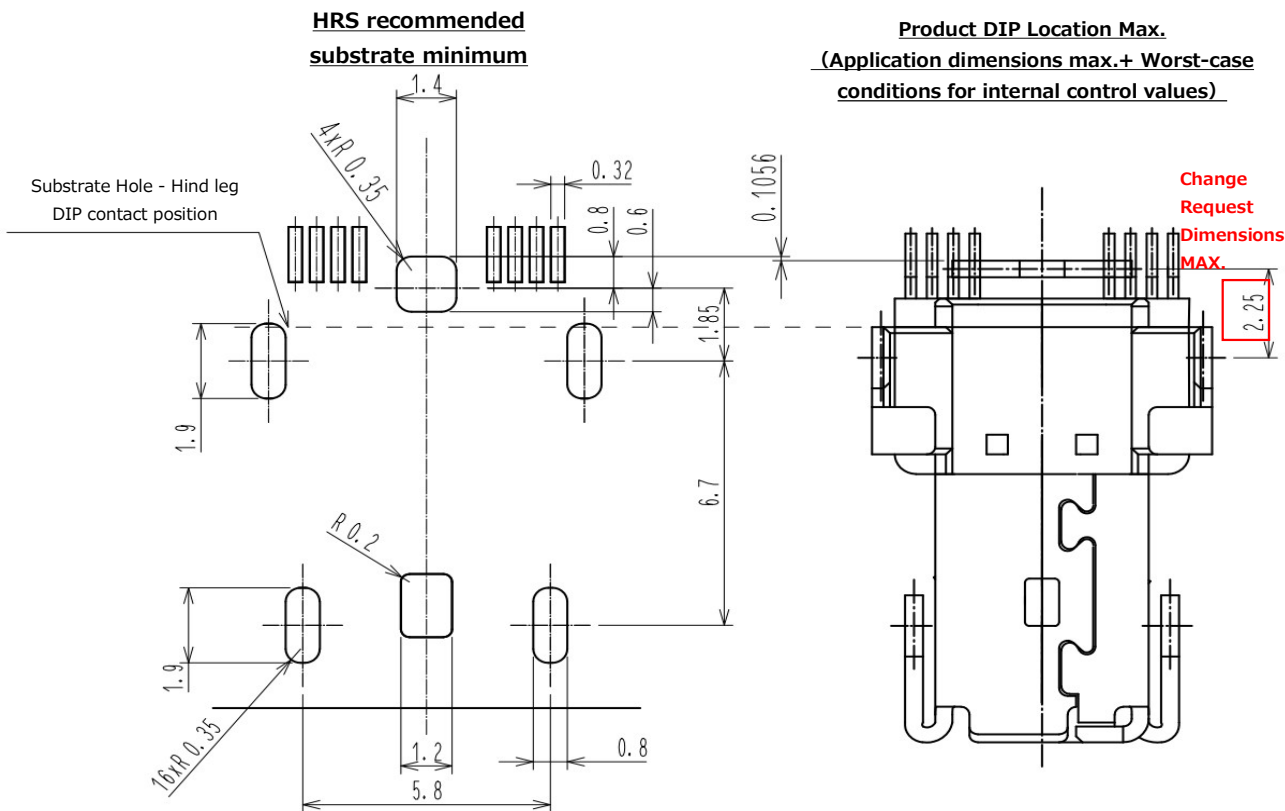

(Before) 1.9 ± 0.2
(After) $1.9 + 0.35 - 0.2$

After the change, all products will be inspected by location checkers in the assembly process to prevent defective products from escaping.

Interference with substrate

Clearance is available even under the worst-case combination of substrate-product conditions

Worst case combination

Even in worst case conditions with minimum board and maximum product DIP location, there is a clearance of approx. 0.05 at the shortest point between the DIP corner and the board hole corner.

There is no impact on implementation.
