

**PCN494:** Plating Supplier Transition

**Issue Date:** May 16, 2024

Dear Valued Customer,

This notice is to inform you of a supply chain change affecting select Littelfuse items you have purchased.

***Description of the Change:***

We will transition the provider of plating processes on the cast components of the attached finished goods from its current supplier to a new supplier who currently provides similar processes on similar products for Littelfuse today. As a part of this resourcing effort, we will change the plating color for some part numbers from platinum gold chromate to a yellow/gold chromate.

***Reason for The Change:***

We will transition this process as a result of recurring issues with the current supplier, including timely communication, production standards, and continued commercial negotiations.

***Effective Date of the Change:***

The transition will occur as a running change, effective immediately.

***What You Need to Do:***

No action is required from you; there will be no change in fit, form, function or visual appearance of these parts.

If you have any questions, please contact your Customer Service or Inside Sales Representative. We appreciate your business and our continued partnership.

Sincerely,

Luisa Cuevas  
Associate Product Manager  
Littelfuse Commercial Vehicle Products
