Dear Customer,

**Re: Product Change Notification for Harwin product.**

The packaging method for two customer special products have been altered. This also affects the quantity in each pack. The following items are affected:

- M90C109279C-08
- M90C109336C

The packaging has been changed from a vacuum-formed tray to a tube. This has changed the quantity per pack from 5 to 7. All future orders will need to be multiples of the new pack size.

The Customer Services team will be in touch separately to advise the status of any existing orders.

If you have any further questions regarding this letter, please do not hesitate to contact us.

Yours faithfully,

The Product Change Team
