2 Type of change

- Modified label
- Improved identification product configuration code on the label

3 Detailed description of change

The following table describes the modifications applied to the new packaging label. All listed product types share the same packaging label design. To better visualize the modifications, colours and numbers were added to this chapter to cluster information into sections (the colours and white numbers are therefore not part of the new label layout). An old and a new label has been added as an example for visualization.

<p>Product identification section: To improve readability, all the information concerning product identification in this group is clustered. Furthermore, some of the content / text of the label is subjected to following changes (see highlighted areas on the labels of the following page):</p> <ul style="list-style-type: none"> • <u>Configuration Code:</u> Has been added. • <u>Part Description:</u> Has been updated for some part numbers (harmonize description & improve identification). "Fuse Clip" and respective fuse size compatibility was added <p>→ For details on text / content that has been changed please see list attached to this PCN.</p>	1
<p>Product conformity section: Identical information, slightly rearranged.</p> <ul style="list-style-type: none"> • UKCA conformity symbol added to CE conformity symbol, see reference: PCN from 2021 D10-059-659 	2
<p>Product logistics section: Label names changed. Information was slightly rearranged. The meaning of the barcodes changed.</p>	3
<p>Product approval section: Identical information, slightly rearranged.</p>	4
<p>Interruption ratings section: Identical information was slightly rearranged.</p>	5
<p>Origin information section: Factory Code was added. Information got rearranged.</p>	6
