

## Product Update Memo

TRIMPOT® TRIMMING POTENTIOMETERS

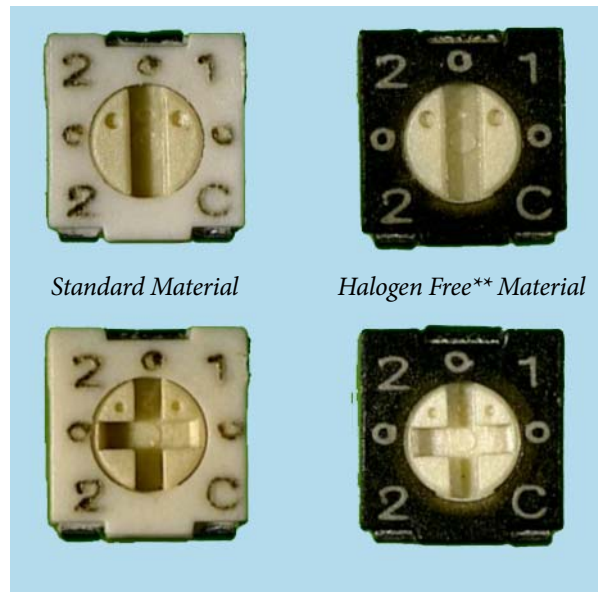

March 2012

### Bourns® Trimpot® Product Line Announces Product Update for Model 3313

In January 2012, Bourns announced a product change to our [Model 3313](#) which would have phased in a halogen free\*\* housing material. The original Product Change Notification may be viewed at this link: [http://www.bourns.com/data/global/pdfs/T1201\\_3313\\_PCN.pdf](http://www.bourns.com/data/global/pdfs/T1201_3313_PCN.pdf).

Since the release of the PCN, we have had numerous requests to preserve the current (cream color) material as the standard product. The halogen free\*\* (black color) will be available as a custom part.

The halogen free\*\* material may be ordered using the following part numbers:

- 3313J-GK2-RC for single-slot version
- 3313S-GK2-RC for single-slot version
- 3313X-GK2-RC for single-slot version
- 3313J-GL5-RC for cross-slot version
- 3313S-GL5-RC for cross-slot version
- 3313X-GL5-RC for cross-slot version

There is no change to form (except color), fit or function of the product. If you have any questions, please feel free to contact [Bourns customer service](#).

\*\* The Bourns definition of "halogen-free" is: Bromine (Br) content:  $\leq 900$  ppm; Chlorine (Cl) content:  $\leq 900$  ppm; Total Br + Cl content:  $\leq 1500$  ppm.
