

Product/Process Change Notice - PCN 21_0230 Rev. -

Analog Devices, Inc. One Analog Way, Wilmington, MA 01887

This notice is to inform you of a change that will be made to certain ADI products (see Appendix A) that you may have purchased in the last 2 years. **Any inquiries or requests with this PCN (additional data or samples) must be sent to ADI within 30 days of publication date.** ADI contact information is listed below.

PCN Title: AD45261 Die Revision and Data Sheet Revision

Publication Date: 10-Feb-2022

Effectivity Date: 15-May-2022 *(the earliest date that a customer could expect to receive changed material)*

Revision Description:

Initial Release.

Description Of Change:

Die Revision:

Moved two series diodes in the gain stage to prevent large signal oscillation. Physical location of the diodes have not changed and were rerouted using metal and via layers.

Data Sheet Revision:

Changed Output Voltage High (Voh) over all operating conditions.

Reason For Change:

To improve stability during short-circuit conditions or when driving a heavy capacitive load.

Impact of the change (positive or negative) on fit, form, function & reliability:

There is no impact on the fit, form, and reliability. Functionality of the part will change since the output voltage swing will be lower than previously specified.

Product Identification *(this section will describe how to identify the changed material)*

Cut-Over Date Code provided upon request.

Summary of Supporting Information:

Qualification has been performed per Industry Standard Test Methods. See attached Qualification Results Summary. This change will be reflected in Rev Sp.A of the Product Data Sheet.
