

Product Change Notification

CHIP DIODES

June, 2015

Bourns® Model **CDSOT236-0502 and **CDSOT236-0504LC** Surface Mount TVS Diode Arrays**

Change to Assembly/Test Location

In order to support our fast growing demand, secure continuity of supply and provide maximum flexibility to our customers, Bourns is working with our existing assembly/test subcontractor to move production from the existing location in Jiangsu, China to a different location in Anhui, China.

Traceability is maintained through the lot code and date code. The product marking and label are unchanged. The country of origin will remain China. Evaluation samples and qualification data are available upon request.

Other than the location change, there are no changes to the process or materials. Therefore, there is no change to the the fit, form, function or reliability of the device.

Implementation dates are as follows:

Last time buy date of products from Jiangsu, China: December 14, 2015

Date that manufacturing of existing product in Jiangsu, China will cease: December 31, 2015

Bourns will begin phasing in this process in Anhui, China: January 1, 2016

First date code using the above changes: 1601

If you have any questions or need additional information, please feel free to contact [Customer Service/Inside Sales](#).
