

Product Change Notification

POWER RESISTORS

December 10, 2018

Select Bourns® Power Resistors

Change from UV to Laser Marking

Effective January 1, 2019, select Bourns® Power Resistor product markings will change from UV ink to laser marking. This change in marking is due to the production efficiency and enhanced marking clarity provided by new laser marking technology. The form will be changed due to the change to laser marking technology. This change has no effect on fit, function, quality or reliability of the product. Products can be identified by the date code 1922.

Affected Product Series

PWR2010
PWR2615
PWR3014
PWR4318
PWR4525
PWR5322

Implementation dates are as follows:

First shipping date for new laser marked products: **June 1, 2019**

Last day of manufacturing of UV marked products: **June 1, 2019**

If you have any questions or need additional information, please feel free to contact [Customer Service/ Inside Sales](#).
