

Dimension Change for CLMXB-FKA LEDs

PCN-CM093

Announcement Date: November 30, 2016

Implementation Date: Immediately

This notification applies to the following Cree product series:

CLMXB-FKA-xxxxxxx

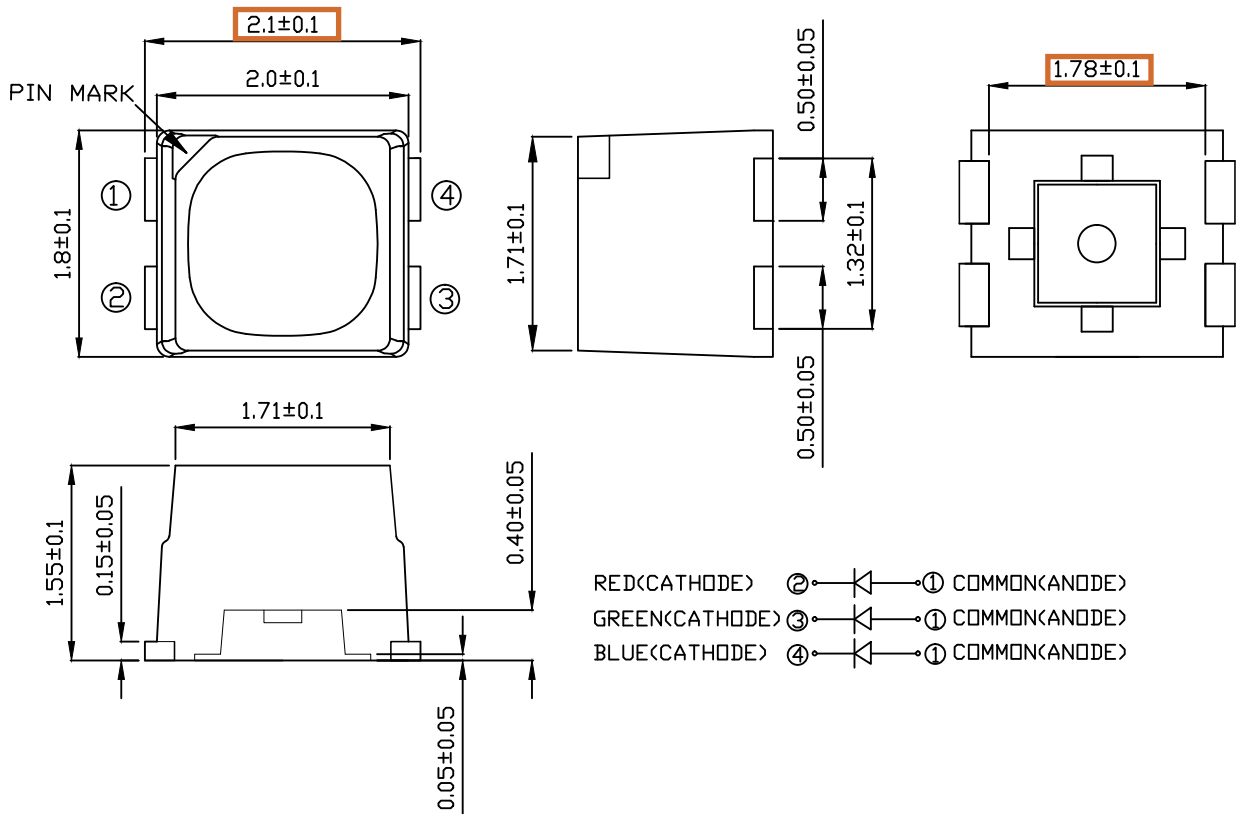

No customer action is required.

CHANGE DESCRIPTION

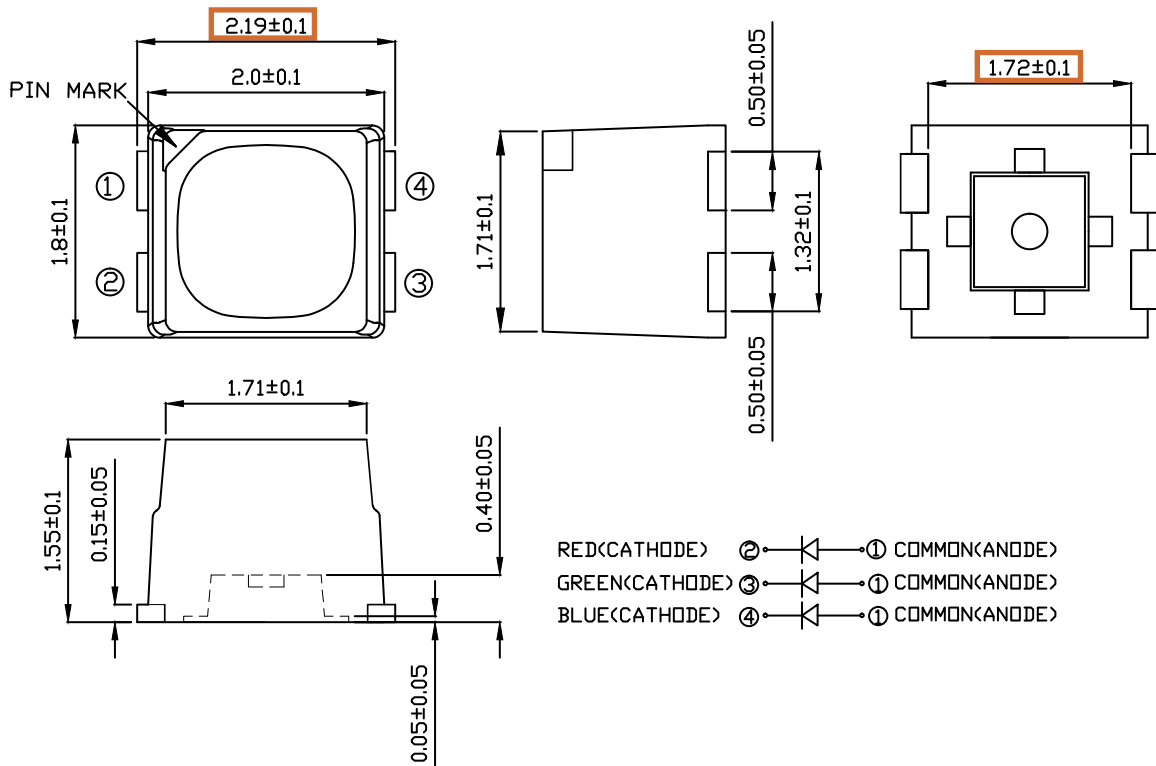

Cree will begin shipment of CLMXB-FKA LEDs with new dimensions. Diagrams showing the current and new LED dimensions are shown below. (Orange boxes outline the affected dimensions.) Cree has analyzed the optical, electrical and thermal properties of the LEDs made with the new dimensions and found them to be identical to the data sheet specifications of the LEDs made with the current dimensions. Please refer to the latest data sheets on www.cree.com.

For the best screen appearance, Cree recommends against mixing new dimension LEDs with current dimension LEDs in the same display. For more information concerning this recommendation, please contact your local Cree sales representative.

Current Dimensions

New Dimensions

IMPACT OF CHANGE

Effective immediately, customers may begin receiving shipments of CLMXB-FKA LEDs with new dimensions.

No customer action is required.
