

Diodes Incorporated Discrete and Analog Semiconductors

Qualification Report - PCN-2169

Manufacturer No.: PCN-2169 - Lead Frame Structure, Mold Compound and Solder

Type changes to enhance PowerDI-5 package

Revision: 0

Date: January 9, 2015

Qualified By: Diodes Incorporated

Also Applicable To: The part numbers listed in the associated PCN are Qualified by

Similarity (QBS) to the devices listed in this report.

Please go to www.diodes.com for current data sheets on

associated devices

Prepared By: Diodes US Document Control Date January 9, 2015

Approved By: Diodes US QRA Department Date January 9, 2015

The information contained herein is DIODES INCORPORATED PROPRIETARY information. Reproduction of this document, disclosure of the information, and use for any purpose other than the conduct of business with Diodes is expressly prohibited

 $\textbf{DIODES INCORPORATED} \ 4949 \ \text{Hedgcoxe Road, Suite} \ \# \ 200, \ Plano, \ TX \ 75024 \ \text{USA} \ \underline{www.diodes.com}$

Quality and Reliability Data Notice

Plastic encapsulated Diodes Incorporated semiconductor devices are not designed and are not warranted to be suitable for use in some military applications and/or military environments. Use of plastic encapsulated Diodes Incorporated semiconductor devices in military applications and/or military environments, in lieu of hermetically sealed ceramic devices, is understood to be fully at the risk of Buyer.

Quality and reliability data provided by Diodes Incorporated is intended to be an estimate of product performance based upon history only. It does not imply that any performance levels reflected in such data can be met if the product is operated outside the conditions expressly stated in the latest published data sheet for a device.

Existing industry standards for plastic encapsulated microcircuit qualification and reliability monitors are based upon historical data, experiments, and field experience with the use of these devices in commercial and industrial applications. The applicability of these standards in determining the suitability for use and safety performance in life support, military and aerospace applications has not been established. Due to the multiple variations in field operating conditions, a component manufacturer can only base estimates of product life on models and the results of package and die level qualification. The buyer's use of this data, and all consequences of such use, is solely the buyer's responsibility. Buyer assumes full responsibility to perform sufficient engineering and additional qualification testing in order to properly evaluate the buyer's application and determine whether a candidate device is suitable for use in that application. The information provided by Diodes Incorporated shall not be considered sufficient grounds on which to base any such determination.

THIS INFORMATION IS PROVIDED "AS IS" WITHOUT ANY EXPRESS OR IMPLIED WARRANTY OF ANY KIND INCLUDING WARRANTIES OF MERCHANTABILITY, NONINFRINGEMENT OF INTELLECTUAL PROPERTY, OR FITNESS FOR ANY PARTICULAR PURPOSE. IN NO EVENT SHALL DIODES INCORPORATEDOR ITS SUPPLIERS BE LIABLE FOR ANY DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF PROFITS, BUSINESS INTERRUPTION, LOSS OF INFORMATION) ARISING OUT OF THE USE OF OR INABILITY TO USE THE INFORMATION, EVEN IF DIODES INCORPORATED HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

Diodes Incorporated may provide technical, applications or design advice, quality characterization, and reliability data or service providing these items shall not expand or otherwise affect Diodes Incorporated warranties as set forth in the Diodes Incorporated Standard Terms and Conditions of Sale for and no obligation or liability shall arise from Diodes Incorporated provision of such items.

"The information contained herein is DIODES INCORPORATED PROPRIETARY information. Reproduction of this document, disclosure of the information, and use for any purpose other than the conduct of business with Diodes Incorporated is expressly prohibited".

DATE: 9th January, 2015

PCN #: 2169

PCN Title: Lead Frame Structure, Mold Compound and Solder Type changes to

enhance PowerDI-5 package

Dear Customer:

This is an announcement of change(s) to products that are currently being offered by Diodes Incorporated.

We request that you acknowledge receipt of this notification within 30 days of the date of this PCN. If you require samples for evaluation purposes, please make a request within 30 days as well. Otherwise, samples may not be built prior to this change. Please refer to the implementation date of this change as it is stated in the attached PCN form. Please contact your local Diodes sales representative to acknowledge receipt of this PCN and for any sample requests.

The changes announced in this PCN will not be implemented earlier than 90 days from the notification date stated in the attached PCN form.

Previously agreed upon customer specific change process requirements or device specific requirements will be addressed separately.

For questions or clarification regarding this PCN, please contact your local Diodes sales representative.

Sincerely,

Diodes Incorporated PCN Team

PRODUCT CHANGE NOTICE

PCN-2169 REV 00

Notification Date:	Implementation Date:	Product Family:	Change Type:	PCN #:
9 th January, 2015	9 th April, 2015	Discrete Products	Lead Frame structure, Assembly Materials	2169

TITLE

Lead Frame Structure, Mold Compound and Solder Type changes to enhance PowerDI-5 package robustness

DESCRIPTION OF CHANGE

This PCN is being issued to notify customers that in order to improve PowerDI-5 package body strength and gain better device power dissipation capability, Diodes Incorporated has qualified an enhanced lead frame structure, mold compound and solder materials for PowerDI-5 packaged products.

Full electrical characterization and high reliability testing have been completed to ensure that no changes in product reliability, device functionality or data sheet electrical specifications exist.

There will be no change to the Form, Fit, or Function of affected products.

No other changes will be made.

IMPACT

No change in datasheet parameters and product performance

PRODUCTS AFFECTED

Please refer to the attached part lists
