

Product construction and the change of electrode manufacturing process (Classification I : Sputtering electrode)

■ Electrode change contents

We will change form Ni-Ag to sputtering electrode.

① ② ④	No. Material
①	BaTiO ₃ Semi-Conductive Ceramics
②	Electrode (Ni / Ag) → Sputtering (Cr/Ni/Cu/Ag)
③	Solder
④	Silicon Resin
⑤	Sn-Cu Soldered Copper

■ Production location change contents

We would appreciate your kind understanding for production change with electrode change.

Before	After
Murata Manufacturing Co., Ltd. Yokaichi Plant	Wuxi Murata Electronics co., Ltd

Company profile of overseas subcontractor
(Classification II : Consignment to overseas subcontractor)

Items	Contents
Company	Hongming Electronics Co., Ltd.
Foundation	1958
President	Zhang Ming
Address	No.29 East Sec.2, Er Huan Rd., Chengdu 610058,P.R.China
Sales	809M RMB
Employees	971
Capital	89.1M RMB
Business	Electronic parts production and sales, Machines, Equipments, Meters, Electronic material, High and Low voltage SW
Products	Capacitor/EMI/Sensor/Thermistor/Mold
