	Cinterion Ordering No. changes: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
	New Ordering Code:	

Reason of Change:

- | | |
|----------------------------------------------------------|-------------------------------------------------------------------------------------|
| <input type="checkbox"/> Technical requirement | <input checked="" type="checkbox"/> Change of production process/logistical changes |
| <input checked="" type="checkbox"/> Customer requirement | <input type="checkbox"/> Location of production moved |
| <input type="checkbox"/> Quality improvement | <input type="checkbox"/> Other: |

Description of change:	<p>The content of the DSB75 delivery unit will be adapted to the principal customer needs. That is, in future, the DSB75 will be shipped only with the following two essential accessories:</p> <ul style="list-style-type: none"> - RF Adapter Cable (Hirose-Hirose) and - GSM Quad Band Antenna. <p>All the other previously included accessories will be available for order either under a separate ordering code (Handset Votronic) or can be ordered directly from a recommended supplier (Screw M2x8 Din84, Nut M2 DIN 934, Distance pin for M2 self lock and plug-in charger).</p>
Scheduled date of introduction (cw/year):	<p>For the actual DSB75 delivery unit with complete accessories content, the "last time buy" will be the 31st January 2012. All existing orders till 31st January 2012 are non cancellable and non reschedule. Last time shipment for the DSB75 with complete accessories is 30th June 2012.</p> <p>The new DSB75 delivery unit with reduced accessories content can be ordered under the same ordering code from 1st February 2012, with a lead time of 12 weeks.</p>
Timing note:	In case of further questions please do not hesitate to contact your regional technical sales support.

Quality assurance measurements:	The product DSB75 fulfills all internal test requirements according to our Quality Management process and philosophy.
