

Product change notification (PCN)

Title / short description	Change to the interior plastic housing shape of the CC(V) 2,5/...-G families
Affected article category	PCB terminal blocks and PCB connectors
Change category	Form and appearance
Change number	AAA160112-01

Purpose/objective of the change

In order to maintain the ability to deliver, production will switch back to the previous plastic tools for a brief period.

Detailed description of the change

In PCN AAA160112 Revision 00 (see appendix), a change to the interior shape of the housing was announced as part of the continuous improvement process. The items in "Material_list.csv" have already been changed over to the new tools with the new shape. To increase process capability, the new tools will have to be reworked. In order to maintain the ability to deliver, production will revert to producing all CC(V) items for a transitional period using the previous tools with the old shape. Once the tools have been optimized, the changeover to the new shape will take place. The batch number will be revised at each transitional step. The technical data and external dimensions will not change.

Dear Ladies and Gentlemen,
the following articles will be delivered in a modified version. Please take care to inform your internal staff and as far as necessary your end customers about this modification.
Any modification will support the technical progress. Existing specifications will be met or exceeded.

Art.-No.	Description g ¹⁾	Batch- or Rev.- No. from

Brief description of the modification ^{1) 2)}

Change of inner contour of the plastic housing for 2-12 positions

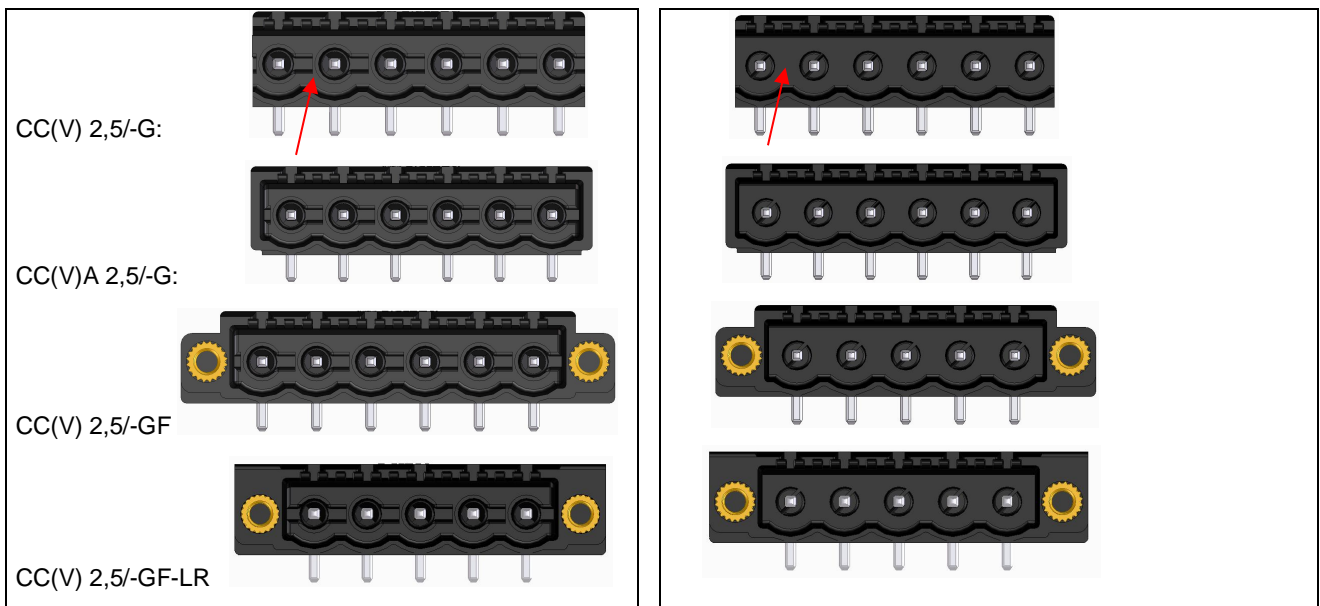

Detailed description of the modification

To optimise the production process and within the scope of tool adaptations the inner contour of the 2-12 position plastic housing will be changed. This change has no effect to the outer dimensions and the drilling pattern. Also the technical specifications are not affected by this change. During the changeover phase both variants will be delivered in parallel depending on the stock.

further enclosures:

Previous product ³⁾

New product ³⁾

Stock-/delivery status ¹⁾

Existing stock can still be used: yes no

Mixture of stock is tolerated: yes no

Expected first shipment of the modified product(s): 01.06.2018

Forwarding this document or its content from Phoenix Contact to a customer lies in the responsibility of the local Phoenix Contact sales channel.
