Phase-out of diverse products

7

General

SCHURTER has completed and optimized its product range - thanks to innovative ideas and specific investments new products of improved quality were developed. At the same time certain types have reached the end of their product life cycles and market demand is becoming smaller. For this reason SCHURTER adjusted its assortment and phases out duplications and products whose sales are low.

Under «Affected Products» on pages 3 you will find a list of phased-out types with last order and shipment dates. Where available, an alternate type is given which ideally fits the current and future requirements.

With this Sales Info we want to give our distribution partners the opportunity to react in time and to make arrangements with their customers.

Phase-out Procedure / Time Schedule

On the SCHURTER website the data sheets of the affected types are marked with a phase-out text. Also the last possible order date and the link to an alternate type is given, where available. In SAP the Material Status respectively Distribution Chain Status is set to either "Del. material with substitute" or "Del. material without substitute". Further a sales text MD04 with all the corresponding info is provided for the affected products.

In addition to the list of affected products on pages 3, you will find an Excel list with all order numbers attached to this e-mail and in our Partner Service [\[1\]](#) portal.

Activities Sales

In order that the phase-out process progresses smoothly, we kindly ask our sales partners to check the all-time requirement and alternatives with their customers in time and to accordingly place an order with SCHURTER.

Best regards,

Stefan Hösli
