KOA part number: RK73**1JX,2AX,2BX,2EX

Customer part number: Several (part list upon request)

Description of obsolescence: We will stop the production of above series.

Reason for the obsolescence: The main raw materials for the target products are highly custom materials that are different from our company's general-purpose thick film chip resistors.
Suppliers of raw materials have continued to produce and supply small quantities for the target products, but due to the recent changes in the market, the movement of production integration has accelerated, and it is no longer possible to continue purchasing the materials.
Accordingly, we have decided to discontinue production of the target products, the RK73***X series.

Effective Date of the obsolescence: December 31th, 2026
Last Time Buy: December 31th, 2025
