Vigortronix will strive to minimize the environmental impact of our activities.

- comply with all applicable and relevant environmental laws and regulations;
- strive to conserve resources and prevent pollution;
- strive for continual improvement in environmental performance;
- provide appropriate environmental training for employees;
- review this policy annually and revise it as necessary.
- all goods purchased and supplied by Vigortronix Ltd are RoHS compliant
- all paper waste is recycled and reused for packaging materials
- All hazardous waste is collected and disposed of by 3rd party company

Individual responsibilities

All employees are expected to conserve resources and act in an environmentally responsible manner. They are expected to comply with company environmental programs and to immediately report any environmental concerns to their manager.

This policy is the responsibility of the Managing director. Awareness of and compliance with this policy is a responsibility of every manager in the company. The Managing director will monitor business environmental performance and conduct compliance reviews on a periodic basis.

Yearly performance reporting

- a year-to-date listing of the amount of energy consumed, business travel, waste generated, waste recycled, and water consumed.
- a description of any significant environmental events or projects; and
- a description of any forthcoming environmental related projects or regulations expected to have a significant financial or legal impact on the company.

The content and relevance of these reports will be reviewed annually by the Managing director.

Reporting Environmental Issues or Concerns

Employees are to raise any environmental issues or concerns with their manager.

Display

This policy is to be displayed on the notice board and brought to the attention of all employees by appropriate means.
