

Per and Poly Fluoroalkyl Substances (PFAS)

Company Name:	OHMITE MFG. CO.		
Company Address:	27501 Bella Vista Parkway		
	Warrenville IL, 60555		

Per and Poly Fluoroalkyl substances (PFAS)¹ are man-made Carbon and Fluorine based chemicals that have been used in a wide range of consumer and industrial products due to their resistance to grease, oil, water, and heat. PFAS include PFOA, PFOS, PTFE, FKM, PVDF. PFAS have various applications in electronic products such as protective/water-resistant coatings and do not easily degrade. They are persistent and bio-accumulative in nature, and so are referred to as forever chemicals.

PFAS are highly regulated due to their toxicity, and persistence in the environment and have been banned or restricted in the US¹, EU², and Canada³.

Please see the following table to validate the absence / presence of PFAS in parts that Ohmite provides to customers.

Customer Part Number	Description	Manufacturer Part Number (MPN)	Contains PFAS Y/N	If Y, CAS # (s) of PFAS Chemicals)	Name(s) of PFAS Chemicals	Concentration (ppm) of PFAS Chemical
N/A	N/A	All Catalog parts	N
